**Nagpur, February 14, 2017:** Solar Industries India Ltd., the largest manufacturer, suppliers and exporters of commercial Explosives and Explosive Accessories in India, has declared its financial results for the quarter ended December 31, 2016.

Commenting on the financial performance of the company Mr. Manish Nuwal, Managing Director & CEO, Solar Industries India Limited said, "We delivered satisfactory results. There was a growth of 12.32% when we compare it on YoY basis. However, on QoQ basis the growth is 33% which shows a significant recovery. This growth came in spite of demonetization and translational losses, which is due to devaluation in foreign currency in overseas operations.

We have taken effective steps to mitigate the losses arising from weakening of currency. As a result, the effect of translational losses will get minimized by Q4FY17. Operations in South Africa will commence from Q1FY18. It will take about three months for our product to get stabilized and get recognition within the local market.

As we said earlier, we are expecting **further orders** from defence. I am happy to announce that our current order book stands at **Rs. 102.81 Crores** executable over FY18 against the previous Rs. 72.81 Crores. The company has participated in many RFI's and more orders are expected to come in future. Our supply chain to defence sector is now getting streamlined, as a result we have made a sale of Rs. 6.35 crores in Q3FY17 and expect to cross 12 Cr in Q4 17.

We continue to build on our core strengths to accelerate business growth and seek new vistas of opportunities to deliver on our stakeholder commitments.”

### **About Solar Industries India Ltd.**

Solar Industries India Limited (SIIL) is the largest industrial explosives manufacturer in India and the fastest growing Company in the sector. Over the years, the Company leveraged its competitive advantage - high quality, wide product range, efficient manufacturing, large capacity and integration – to emerge as the largest sectoral exporter from India. The Company is now extending its presence from long-standing explosives segment to the manufacturing of products used in the Defence industry.

Our expertise and infrastructure facilitates us in expanding our growth frontiers by scaling up domestic manufacturing capacities, strengthening our value-added portfolio and developing products for the defence sector. We have 25 manufacturing plants across 10 states in India and 4 in overseas locations. Our products are consumed in 42 countries across the globe.
